

## PIPE HOOK

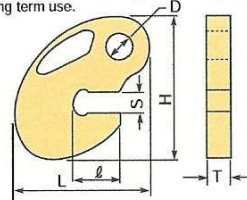

### PHC 0.5~ 2

Hook designed for lifting and handling of steel pipes and pipes made from a variety of materials.

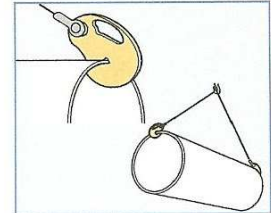

#### ■ FEATURES

- When mounted onto the pipe, this hook will not fall off when the operator releases his hand from the hook.
- The hooks are made of special steel, which are precisely tempered for extra strength and durability.

※Pipe hook without safety point is designed for long term use.

#### ■ EXAMPLES OF USE

⚠ Always lift work pieces at 2 or more points for safety.
